00:00:00 Speaker 1

Hi everyone. It's Ann zastryzny here. So my innovation plan is about E portfolios and they're reading language arts classroom or roll a classroom. I'm starting with 4th grade just because I teach that grade level and because I'm already accustomed to it.

00:00:22 Speaker 1

As time goes on, I would like to see then like what 5th graders do it and then it just builds on top from there.

00:00:30 Speaker 1

And so I'm going to start with my welcome start here. Portion I have inserted a fourth grade URL, a newsletter I will click on that for you to view.

00:00:47 Speaker 1

And let's get that open.

00:00:55 Speaker 1

And So what they plan on doing with that is you know, sending that out to parents, I do also have it available as a presentation that is for a slide that that is something I do plan on showing in the classroom in person. So the class is going to be synchronously.

00:01:16 Speaker 1

Why? Because that is how I've planned it.

00:01:20 Speaker 1

Out for that to happen.

00:01:22 Speaker 1

And so the newsletter is like a welcome is a welcome back newsletter, a new era embracing technology with any portfolio and the RA classroom. So that's me introducing the parents, you know, to what they can expect and so.

00:01:43 Speaker 1

I have, you know, just states there for them. And then just class reminders for them to, you know, just to be mindful about.

00:01:52 Speaker 1

And so these are like this is the latter overall that highlights what we'll what we began to embark on in the first six weeks launching our E portfolio journey.

00:02:08 Speaker 1

This is, you know, showing the privacy considerations and the project goals of that.

00:02:16 Speaker 1

Of this.

00:02:18 Speaker 1

Of this journey for.

00:02:20 Speaker 1

Them.

00:02:23 Speaker 1

And so.

00:02:26 Speaker 1

Like I said, that's in both a slide deck and a PDF.

00:02:31 Speaker 1

I created an E portfolio presentation going over. You know what exactly what we'll be doing for both for the students. And this is something that can also be shown to the parents. I made available a PDF version of that.

00:02:51 Speaker 1

UM.

00:02:53 Speaker 1

Of those of the slides so that way.

00:02:57 Speaker 1

If you know if the parents want to see that, if they're curious just about exactly what we're doing and so that way they know what to expect, it goes over the goals that we have for this.

00:03:10 Speaker 1

And.

00:03:12 Speaker 1

Project and then we have the objectives that we for this as well and then portfolio page suggestions.

00:03:23 Speaker 1

For them to do.

00:03:25 Speaker 1

And then I've inserted due dates for them.

00:03:29 Speaker 1

And then just tips for a great E portfolio.

00:03:35 Speaker 1

And again, that's in PDF and also a slide deck. This is these are the calendar plans that I've attached as well. Oops.

00:03:45 Speaker 1

For them, you know that shows like how they will be implemented in the various stages and that you know.

00:03:52 Speaker 1

UM, just letting them know that, hey, it can be changed at any time and and UM throughout the year basically.

00:04:00 Speaker 1

OK.

00:04:01 Speaker 1

And so it goes by fall semester, then the 1st and 1st, 6 weeks and 2nd and 3rd and then into the spring.

00:04:09 Speaker 1

For 4th, 5th and 6th, 6 weeks and then of course it goes into the next school year just for the next group.

00:04:19 Speaker 1

And then over here is the introduction module now.

00:04:24 Speaker 1

I'm kind of having a problem with this introduction module because I only have like 1 item there and that is is Scavenger hunt that introduces them to Google sites and how to create it.

00:04:39 Speaker 1

I'm thinking of just maybe getting rid of that of that module in particular and to.

00:04:48 Speaker 1

Let me go back to that and to like move that move the scavenger hunt into the Google sites help area.

00:04:58 Speaker 1

So this is what I'm talking about. So I have Google site help building.

00:05:04 Speaker 1

Which has.

00:05:06 Speaker 1

I've attached to a YouTube video that will serve us tutorials to both students and the teacher.

00:05:13 Speaker 1

And then I've also created UM, a PowerPoint. I have two steps to creating a Google site, and then I've also created a Google Classroom rubric. I made it a point, you know, for them, you know.

00:05:32 Speaker 1

That this is that.

00:05:34 Speaker 1

It can be downloaded as both, UM.

00:05:38 Speaker 1

Paper copy or just as a slide. There, I will make that like paper copy available in class. I forgot to add it as a PDF, but I will make sure and do that later sometime within the next week or so to make it available to them.

00:05:56 Speaker 1

And then over here.

00:06:00 Speaker 1

Go back and then over here I have the writing prompts that they will go ahead and do they have the narrative writing prompt that they will work on short constructed response response to SCR, expository writing and the CR the.

00:06:20 Speaker 1

And the constructed response and the argumentative slash opinion writing I made it a point to, you know, separate these out, you know, just to make sure that you know.

00:06:32 Speaker 1

That it's not too much and given out one time.

00:06:37 Speaker 1

And then over here, big brain energy building and growth mindset.

00:06:43 Speaker 1

UM, this is a component I decided to add in, you know, just to show you know that and that with that stage of like caring and just.

00:06:53 Speaker 1

That way they are not like what's the word like frustrated.

00:06:58 Speaker 1

You know, just about, you know, about the project itself and about implementing this.

00:07:05 Speaker 1

Just you know, hey, we have a growth mindset and a fixed mindset. You know, you may not understand it yet, but you will get it later at a later point and you know we will do like a a slide deck and a companion.

00:07:22 Speaker 1

Document to go ahead that goes with the slide deck itself. And then over here to it's this one is about growing your brain.

00:07:32 Speaker 1

Let me know what you all think, especially with that one.

00:07:40 Speaker 1

Part of this introduction module, the scavenger hunt? Not too sure if I should like, just keep that module or like put that scavenger hunt in Google and the Google site help and then just or and delete the introduction module itself. I'm not too sure what else I should add in there too.

00:07:59 Speaker 1

Thanks for watching. Bye.
